

Komtrax Full Renewal

Launching June 1, 2026

A fresh new look with upgraded features — easier to read, easier to use. Access it from the same URL you already know.

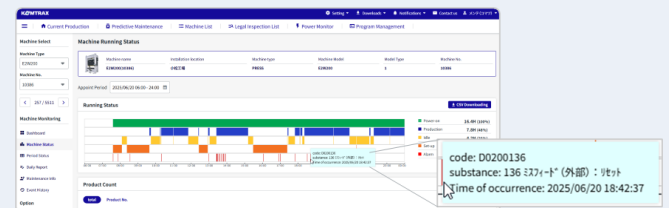

▲ New Current Production screen preview

01 Full Design Overhaul

Built on HCD (Human Centered Design) principles for maximum clarity and ease of use.

- ▶ Icon-rich, intuitive interface
- ▶ Hover over anomalies to see alarm details in a tooltip
- ▶ Log in with your email address

02 Dashboard

NEW

Pin your go-to charts and tables on an always-on view. Also supports slideshow mode on large factory monitors.

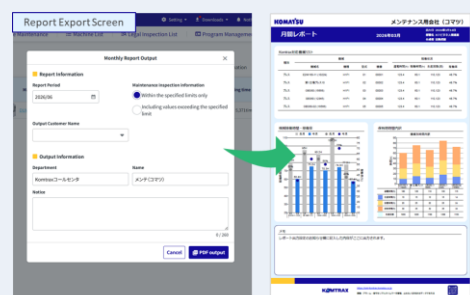

- ▶ Freely arrange up to 9 charts
- ▶ Auto-refresh every 5 min (*machine-side software update also required)
- ▶ Use as an Andon or production management monitor on the shop floor

03 Monthly Reports

Generate a Monthly Report summarizing operation data anytime you need it.

- ▶ Completely redesigned monthly report layout
- ▶ Create and export custom reports whenever you want
- ▶ Historical reports available too

Other New Features & Enhanced Options

Auto Time Study(*) | Power Monitor | Line Management | Predictive Maintenance | Usage Monitor / LWC | Laser Machine Management |

* Auto Time Study, previously a paid add-on, is now free as a standard feature!
